**DOMINION ORDERS IN COUNCIL.**

[735]

**AT THE GOVERNMENT HOUSE AT OTTAWA.**

Friday, the 11th day of March, 1921.

**PRESENT:**

**HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.**

**WHEREAS** by an Order in Council of February 9th, 1897, regulations were established for the issue of permits to mine coal, the property of the Crown, on Dominion lands, but as regulations were subsequently established for the leasing of such coal-mining rights for a term of years upon payment of an annual rental at the rate of \$1 an acre, it was considered that these regulations were no longer necessary, and they were rescinded by Order in Council of February 18th, 1920:

And whereas representations have been made to the Department of the Interior that actual settlers who are unable to purchase a supply of coal for their own domestic use, and who are not in a position to acquire a lease under the regulations referred to and to equip a mine, desire to revive these regulations, so that they may be in a position to obtain a permit for a small area and take out sufficient coal each year for their own domestic use:

Therefore His Excellency the Governor-General in Council, on the recommendation of the Minister of the Interior, is pleased to make the annexed regulations for the issue of permits to mine coal for domestic purposes, but not for sale, and the same are hereby made and established accordingly; such regulations to remain in force until rescinded by order of the Minister of the Interior.

**RODOLPHE BOUDREAU,**  
*Clerk of the Privy Council.*

**REGULATIONS FOR THE ISSUE OF PERMITS TO MINE COAL.**

**REGULATIONS** for the issue of permits to mine coal, the property of the Crown, for domestic purposes, but not for sale, in the Provinces of Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-west Territories, the Railway Belt in the Province of British Columbia, and within the tract containing three and one-half million acres acquired by the Dominion Government from the Province of British Columbia, and known as the Peace River Block.

"Minister" shall mean the Minister of the Interior of Canada.

"Location" shall mean the tract which may be described in a domestic coal permit.

"Locator" shall mean the person who locates or stakes a mining location in the manner prescribed in these regulations.

"Year" shall mean a period of twelve consecutive calendar months.

"Mining Recorder" shall mean the Agent of Dominion Lands for the district, or other officer appointed by the Government for the purpose referred to.

1. The coal-mining rights which are the property

of the Crown in the Provinces of Manitoba, Saskatchewan, Alberta, the Yukon Territory, the North-west Territories, the Railway Belt in the Province of British Columbia, and within the tract containing three and one-half million acres of land acquired by the Dominion Government from the Province of British Columbia, and known as the Peace River Block, may be acquired under permit issued by the Mining Recorder for the district at an annual rental of \$5, payable in advance.

(b.) Provided, however, that these regulations shall not apply to school lands or to lands comprised in any Dominion forest reserve or park, or other reserves made by Parliament or by order of the Governor in Council, or lands lawfully occupied for mining purposes, or land within any incorporated city, town, or village, unless otherwise specially provided by the Governor in Council.

(c.) The permit shall not convey to the permittee the right to sell any of the coal mined from the location described therein.

2. The maximum area of a coal-mining location which may be acquired under permit shall be one (1) acre, and no person shall be permitted to hold at the same time more than one permit. The permit may, in the discretion of the Minister, be renewed from year to year so long as the rights described therein are vested in the Crown, provided the permittee has complied in every respect with the requirements of the regulations under which such permit was issued, and provided he is operating a mine to the satisfaction of the Minister.

3. A coal-mining location acquired under these regulations shall not exceed 3 chains in width, measured in direct distance, and its greatest dimension shall not exceed 5 chains, the maximum area embraced not to exceed 1 acre.

4. The location shall be staked out by the locator in person by placing at each of its four corners a wooden post not less than 4 inches square, driven not less than 18 inches into the ground and showing that length above it. If posts cannot be driven into the ground the locator shall erect about each such post, to support it and keep it in place, a cairn or mound of stones at least 3 feet in diameter at the base and 18 inches high. If the location is timbered a line joining the said posts shall be run and fully marked so as to be clearly discernible. If the ground is of such a character that any one post cannot be seen from the ends of either of the lines which form the angle at which the said post is placed, posts flattened on two sides—such flattened portions to face the direction of the line—shall be planted or mounted along the side lines wherever necessary, so that no difficulty may be experienced in following the boundaries of the location. The lines bounding the location shall be straight lines, due north and south and due east and west, and the locator shall mark on the post at the north-east angle of the location legibly his name in full, the date of staking, and the letters C.M.L. No. 1 to indicate that the post is coal-mining location, post No. 1. On the post marking the south-east angle of the location he shall place the letters C.M.L. No. 2 and his initials; on the post marking the south-west angle he shall place the letters C.M.L. No. 3 and his initials; and on the post marking the north-west angle he shall place the letters C.M.L. No. 4 and his initials.

If the corner of the location falls within a ravine, bed of a stream, or other situation where the character of the ground may render the planting of a post impossible, the said corner shall be indicated by the erection at the nearest suitable point of a witness post, upon which he shall place the inscription provided for with regard to corner posts, together with the letters W.P. and an indication of the bearing and distance of the site of the corner marked by such witness post.

5. Application for a location situated in unsurveyed territory shall contain a description of the location applied for, and shall be accompanied by a plan showing the position of such location in its relation to some prominent topographical feature or other known point. The plan shall contain sufficient data to admit of the exact position of the location being definitely shown in the records of the Department. The location shall be rectangular in form, except where a boundary of a previously

located coal-mining location is adopted as common to both locations, and in no case shall the length of the location exceed three times its breadth.

6. Application for a location situated in surveyed territory shall contain a description of the location applied for, the particular legal subdivision of the section in which the location is situated, and shall be accompanied by a plan showing the position of such location in its relation to one of the survey posts marking the section in which it lies. Unless definite information is furnished as to the exact position of the location so staked the application for a permit will not be considered.

7. The location shall in all cases be personally staked out by the applicant, who shall within thirty days from the date of location submit his application in person to the Mining Recorder for the district, or to a sub-recorder for such district for transmission to the Recorder. If personal application is not submitted in the manner prescribed within thirty days from the date of staking it shall not be considered.

8. Where two or more persons lay claim to the same location the right to acquire the same shall be in him who can prove that he was the first to make discovery, or to take possession by demarcation in the manner prescribed in these regulations.

9. If application is made by two or more applicants for the same location, no one of whom is the original discoverer, the Minister may invite their competitive tenders.

10. No person shall enter upon for mining purposes or shall mine upon lands owned or lawfully occupied by another, until he has given adequate security to the satisfaction of the Mining Recorder for any loss or damage which may be thereby caused, and persons so entering, locating, prospecting, or mining upon any such lands shall make full compensation to the owner or occupant of such lands for any loss or damage so caused.

11. In addition to the rent a royalty at the rate of 25 cents per ton of 2,000 pounds shall be levied and collected on the merchantable output of the mine, and such royalty shall be payable to the Mining Recorder for the district. The person operating a mine shall furnish the Mining Recorder for the district with sworn returns monthly, or at such times as the Minister may direct, accounting for the full quantity of merchantable coal mined, and shall pay the royalty thereon.

12. Default in payment of the royalty or in furnishing returns, if continued for thirty days after notice has been posted at the mine, or conspicuously on the property in respect of which it is demanded, by the Mining Recorder, or by his direction, may be followed by cancellation of the permit.

13. Any attempt to defraud the Crown by withholding any part of the revenue thus provided for, by making false statement of the amount taken out, may, in the discretion of the Minister, be punished by cancellation of the permit.

14. In the event of it being found necessary, when the permittee has been requested three times in writing to forward any overdue return, to send a mining inspector or other officer to secure the same, the Minister may charge and may collect from the permittee the expenses incurred in securing such return, and failure to make payment of the expenses so incurred shall render the permit subject to cancellation.

15. The permittee shall, before opening any mine on the tract described in his permit, and before removing any coal therefrom, notify the mining inspector in writing of his intention to do so, and, with a view to conservation, all operations for the recovery of such coal shall be in accordance with instructions given by the Inspecting Engineer of Mines. Failure on the part of the permittee to so notify the mining inspector of his intention to commence operations, or failure to comply strictly with such instructions as may be issued by the Inspecting Engineer of Mines as to the manner in which the location shall be operated will render the permit subject to immediate cancellation.

16. The mining inspector or other officer or person designated by the Minister shall have the right to enter upon any land acquired under permit, or the workings thereon, to examine all records and

books of account of the permittee or operator, and to make such other examination as may be deemed necessary in order to ascertain whether or not the conditions of the permit and the instructions respecting operation are being complied with.

17. The permit shall be returned to the Mining Recorder on the date specified therein, and for failure to do so the Mining Recorder may refuse to issue another permit. mh31
